BACKGROUND
INNOVATION of SUPPORTED EDUCATION
CONSORTIUM

AIMS and ACTIVITIES
Higher and advanced vocational education prepare young adults for a career and enhance their life goals.

The onset of mental illness generally occurs between 17 and 25 years of age. For young adults with psychiatric disabilities, educational resources are largely unavailable. Overwhelming obstacles are stigmatization and discrimination. This results in under- or unemployment and social exclusion.

The ImpulSE project will contribute to 'empower' young adults to:
- get better access to higher education
- be able to complete a study successfully

The provision of individualized, practical support and instruction to assist youth with psychiatric disabilities to achieve their educational goals.
